CHESS TOURNAMENT

On Saturday, December 5th, 2015 At 9:00 AM

Chess is a two-player board game played on a [chessboard](#), a checkered game board with 64 squares arranged in an eight-by-eight grid. Chess is played by millions of people worldwide in homes, [urban parks](#), [clubs](#), [online](#), [correspondence](#), and in [tournaments](#).

In recent years, chess has become part of some school curricula. Each player begins the game with 16 [pieces](#): one [king](#), one [queen](#), two [rooks](#), two [knights](#), two [bishops](#), and eight [pawns](#). Each of the six piece types [moves](#) differently. The most powerful piece is the queen and the least powerful piece is the pawn. The objective is to '[checkmate](#)' the opponent's king by placing it under an inescapable threat of capture. To this end, a player's pieces are used to attack and capture the opponent's pieces, while supporting their own. In addition to checkmate, the game can be won by [voluntary resignation](#) by the opponent, which typically occurs when too much [material](#) is lost, or if checkmate appears unavoidable. A game may also result in a [draw](#) in several ways.
